

# Technical Specification SSH 360 Unclean

The **SSH 360 Unclean** is a universal Ultrasonic Cleaning Device for the industrial cleaning and degreasing of single parts and small batches production parts.. With the help of **Ultrasound** dirt and oil/grease is removed from the parts surface. The contaminated cleaning fluid is filtered by total 3 filter stages to increase the lifetime of the cleaning fluid.

## Mechanische Daten

Outer Dimensions	1300mm x 1530mm x 1100mm (LxWxH)
Tank Dimensions	1000mm x 600mm 600mm (LxWxH)
Tank Capacity	360 L
Max. recommended filling	340 L
Material	Stainless Steel SUS 304
Tank bottom surface	Chrome plates Stainless Steel SUS 304, 15 um
Net weight	330kg
Plumbing , Valves	Stainless Steel SUS 304
Pump	Impeller and housing SUS 304
Coarse Filter	Stainless Steel Filter
Micro Filter	Bag Filter 25um

## Elektrische Daten

Ultrasonic Frequency	28kHz
Timer	1 min to 90 min
Power Supply	AC 380V 3 Phase
Heating Power	8000W, max 80 Degree Celsius
Ultrasonic Power	3600W
Pump	300W
Certificates	CCC, CE, ROHS
